Response to RFP Pre-Bid Queries_Part-2 RFP No: NSIL/RFP/MSS/BAT/2024/01 dated 29 Oct 2024 for Supply, Installation and Commissioning of Rechargeable Lithium Ion Battery for MSS Terminal (Xponders) in Marine Fishing Vessels									
Sr. No.	RFP Volume and Section	RFP page no	Content in the RFP		Proposed content	Clarification for requested change			
1	Volume II and Chapter 2	92	Each battery shall have a minimum capacity of 12 Ah at C/2 discharge at +20°C and a mid-discharge voltage greater than or equal to 3.2V/cell. General operation voltage range given below 6S: (6*3.65=21.9) 21.9Vmax, (6*3.2=19.2) 19.2Vnom, (6*2.65=15.9) 15.9Vmin		Maximum output energy of 19.2V, 12Ah battery: 19.2*12=	Ok, Meets requirement			
2	Volume II and Chapter 2	93	2. Number of batteries 4 3. Battery operating voltage range 1 4. Battery Backup (minimum) 7	ve Rechargeable Li-ion Batteries Value 15W peak/ 40Wh 45.252 12 V to 24 V 72 hrs	1) Deliverable energy requirement: 15*72 = 1080Wh. Please clarify 2) Class2.1&2.2 two specifications having contradiction with energy delivery ratings	15W peak shall only be used to calculate the peak discharge current requirement of the battery pack. This peak requirement is there only for 500ms every 15 mins.			
3	Volume II and Chapter 2		S/N Performance parameter 6. Battery Management System (BMS)	Value With individual standby source, protection features, charge state indicators (operate cells between 20% and 90% capacity), EMI (IEC6180), Sound and light alarm, confirming to IRClass guidelines	1) Depth of discharge 80% and SOCmax 90% (Charging level max) 2) Usable Energy level: 70% of intended capacity of battery please clarify 3) Battery pack capacity need to be 30% over rated to meet the requirement.	80% DoD may be taken for the design. Alarm indicator may give early warning for taking up charging soon, starting at 20% SoC.			

General Pre-Bid Queries -RFP No: NSIL/ RFP/ MSS/ BAT/ 2024/ 01 dated 29 Oct 2024								
Sr. No.	Content in the RFP	Proposed content	Clarification for requested change					
1	Bid submission last date 19/11/2024	Please extend the Bid submission date for atleast 15 days	Extended for 1 week to 26/11/2024					
2	Here we also like to Vi- discusses about Te	-	VC/Telephonic meeting can be arranged with NSIL team if needed. The vendor shall request for the same.
